

Gary Fichtner, CDT, BDT

President of Clōn 3D

President of Esthetic Dental Arts

Mr. Fichtner is owner and President of Esthetic Dental Arts, a dental laboratory and Clōn 3D, both based in Albuquerque, New Mexico. Esthetic Dental Arts have concentrated on cosmetic and restorative dentistry since 1972. Under his guidance, his company has grown into the largest dental laboratory in the state and one of the most successful laboratories in the country. Clōn 3D has specialized in bringing technological innovations to the world of dentistry since early 2006.

He is actively involved in promoting quality dentistry through local and national organizations. He is a member of the Richard V. Tucker international Study Groups, and past president of a local chapter of the study club. Gary is a member of the National Association of Dental Laboratories, the American Academy of Cosmetic Dentistry, and the Albuquerque chapter of Seattle Study Clubs. He is actively involved with Orognathic Bioesthetics International in helping to educate dentists and technicians and elevate their practices to CR dentistry. He helped start the New Mexico Association of Dental Laboratories where he has served as President.

Through his leadership positions in diverse professional and civic groups, Mr. Fichtner has cultivated contacts and mentors to assist him personally and professionally. Mr. Fichtner serves on the advisory board for the Albuquerque Zoological Park and the advisory board for the Albuquerque Aquarium. He is an active member of the Rotarians and sits on the board of directors for Sunrise Bank of New Mexico. Additionally, he is a member of the board of directors for both Orognathic Bioesthetics International where he served as Chairman.

During his 45 years of experience in numerous entrepreneurial and start-up companies, he has gained invaluable knowledge in management, marketing, business development, quality control, and production. Mr. Fichtner currently resides in Albuquerque NM with his wife, Glenda Fichtner
